

Time Tracker

By: Logan Poe

Home Page

The app features a simple home page detailing all of the functions of The time tracker

The screenshot shows a mobile application interface for a 'Time Tracker'. At the top, there is a dark header bar with a 'code' icon and standard window controls. A red diagonal banner in the top right corner contains the word 'DEBUG'. The main title 'Time Tracker' is displayed in a large, dark font. Below the title, there are five input fields with labels: 'Task Name', 'Tags', 'Date (YYYY-MM-DD)', 'Start Time (HH:mm)', and 'End Time (HH:mm)'. Each label is followed by a horizontal line representing the input field. At the bottom of the screen, there are three rounded rectangular buttons stacked vertically: 'Add Task', 'Search Tasks by Tag', and 'Generate Report'. The buttons have a light purple background and dark text.

code

Time Tracker

DEBUG

Task Name

Tags

Date (YYYY-MM-DD)

Start Time (HH:mm)

End Time (HH:mm)

Add Task

Search Tasks by Tag

Generate Report

Feature 1: Add task

Users can input task name, tag, date, start and end time, then press the add task button to add a task to the database

`code`

Time Tracker

Task Name

Tags

Date (YYYY-MM-DD)

Start Time (HH:mm)

End Time (HH:mm)

Add Task

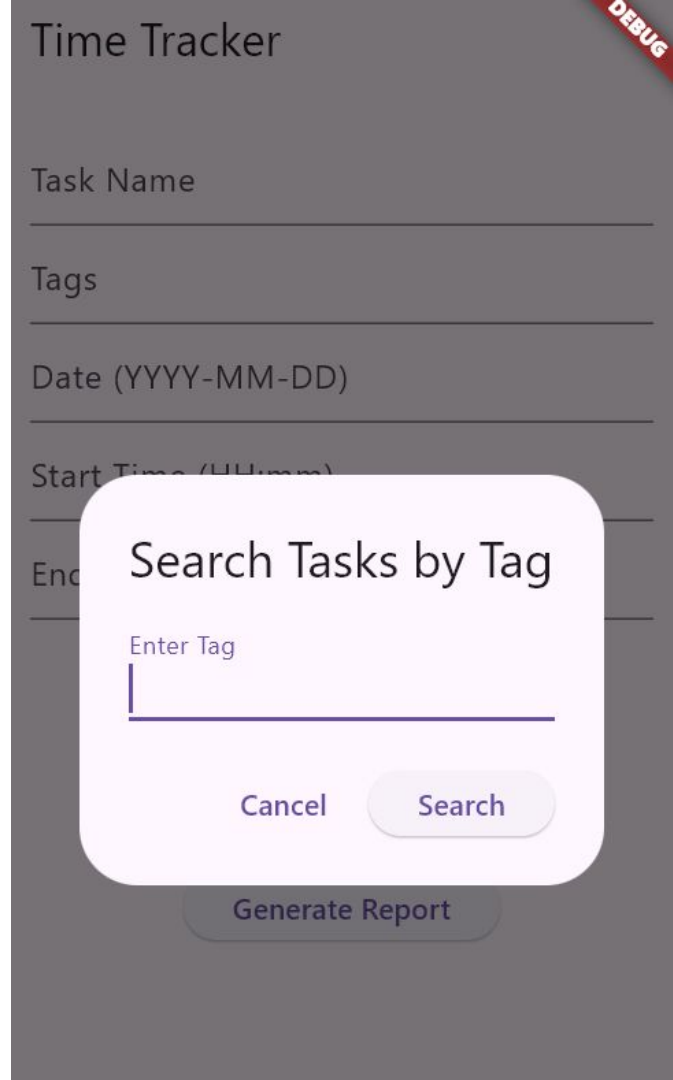

Search Tasks by Tag

Generate Report

DEBUG

Feature 2: Search task

Users can search for tasks by tag. This allows users to search for specific tasks in the database

Feature 3: Generate Report

This feature allows users to generate a report of all tasks in a desired date range
